

Driver Awareness Class

Learn the basics of driving without getting on the road!

This program is a basic class to introduce a young person to the general rules and guidelines about road safety. The student will be exposed to classroom instruction and simulator time. This enables the individual to be placed in a driving situation without being exposed to the dangers of driving on our busy streets. Our roads pose many outside conditions to a young driver and they do not have the skills to assimilate these dangers.

or at (770)205-9011

You will be called to verify program enrollment.
Mail payment to: 610 Peachtree Parkway, Suite207
Cumming, GA 30041

The Program was developed by Dr. Michael Hogan to save our young drivers. Through his practice he has witnessed are too many young lives being lost to our roads and feels its our responsibility as adults to help young people. We encourage all parents to consider this class as a starting point.

**This program is for awareness only and does not provide any certification for the Department of Driver Services.

The certified driving course offered by the Forsyth County Schools and 40 hours road time with an adult will fulfill the new minimum driving requirement. The more we can educated young drivers the better we can reduce the fatalities on our roads.

The LEADER Program is a non-profit drivers education resource designed to educate our future young drivers to be responsible drivers.
